```
응 {
/********PROLOGUE AREA*******/
//THIS AREA WILL BE COPIED TO y.tab.c CODE
#include <stdio.h>
#include <stdlib.h>
#include <stdarg.h>
#include <string.h>
#include "node.c"
//Entry point of parse tree
NODE *head;
//String buffer
char buf[100];
extern FILE *yyin;
extern char *yytext;
extern int yylineno;
char * filename;
int yylex();
void yyerror(const char *str)
      fprintf(stderr, "%s:%d: error: %s '%s' token \n", filename, yylineno,
str, yytext);
int yywrap() {
 return 1;
```

yywrap함수가 없어서 error가 나길래 추가했습니다.

```
NODE* AddNT(NODE* a, NODE* b, int isChild) {
      if(isChild) InsertChild(a, b);
      else InsertSibling(a, b);
      return b;
NODE* AddT(char* name, NODE* a, char* Tval, int isChild) {
      NODE* b = MakeNode(strcat(strcat(strdup(name),": "),Tval));
      if(isChild) InsertChild(a, b);
      else InsertSibling(a, b);
      return b;
}
```

Non-terminal이면 지금노드와 다음노드를 합치는 AddNT

Terminal이면 다음노드를 MakeNode를 통해 메모리 할당하고 지금노드와 합치는 AddT

```
/********GRAMMAR AREA*******/
%union {
     int number;
     char *string;
     NODE *node;
//Tokens & Nonterms
%token <string> DEFINE
%token <string> INT VOID
%token < string> IF FOR
%token <string> CONTINUE
%token < string > OP ASSIGN OP INC OP ADD OP MUL OP LOGIC OP REL
%token <string> ID
%token <string> NUM
%token <string> LPAREN RPAREN LBRACE RBRACE LBRACKET RBRACKET COMMA SEMICOLON
%start c code
%type <node> c code code define header func def func arg dec body statement
assign stmt continue stmt decl list decl init al expr rel expr inc expr
variable value type clause init stmt test expr update stmt
```

Expr token은 사용되지 않아서 삭제했습니다.

Bottom up parsing이므로 마지막에 접근한 c_code가 트리의 head입니다.

기본적으로 \$\$ = MakeNode.. 로 시작해서 노드를 만듭니다.

그리고 terminal인가 여부에 따라 AddNT, AddT함수를 이용해 노드를 합칩니다.

code:

```
define_header {
$$ = MakeNode(strdup("code"));

Bottom up parsing임을 이용해 Terminal부터 Node를 만들고 \$\$를 통해 부모로 전달하면 부모에서 만들어진 Node를 사용할 수 있습니다.

```
/********EPILOGUE AREAR AREA*******/
//THIS AREA WILL BE COPIED TO y.tab.c CODE
```

Head가 parse tree의 시작이므로 WalkTree(head)하면 됩니다.
